Introduction/Background

Business Objects is the software gateway for accessing data through a secured site on the Internet. The State Department of Health Care Services (DHCS) has developed two reporting systems that enable you to view **CMS Net Eligibility Reports** and **CCS Paid Claims** through Business Objects.

To use Business Objects you need, at a minimum, access to the Internet and Microsoft Internet Explorer Version 6.0.

- County users connect to the DHCS Extranet site
<https://portal.dhcs.ca.gov/businessobjects/enterprise115/InfoView/logon.aspx>
- State users connect to the DHCS Intranet site
<http://dhssacbi02/businessobjects/enterprise115/InfoView/logon.aspx>
- You will also need a Business Objects User ID and Password issued by the State. To obtain a password, please fill out [DHCS 4074](#) on the [CMS Net Website](#).

The number of reports through this reporting site will continue to grow based on program needs and your feedback.

Business Objects Passwords

The Business Objects password instruction document has instructions for setting a new password and changing an existing one. It is located at <http://www.dhcs.ca.gov/services/ccs/cmsnet/Documents/BOPasswordInst.pdf>.

Opening Business Objects and Running a Corporate Document

Type your User name and Password, and then click Log on.

The dialog box titled "Log On to InfoView" contains the following text and fields:

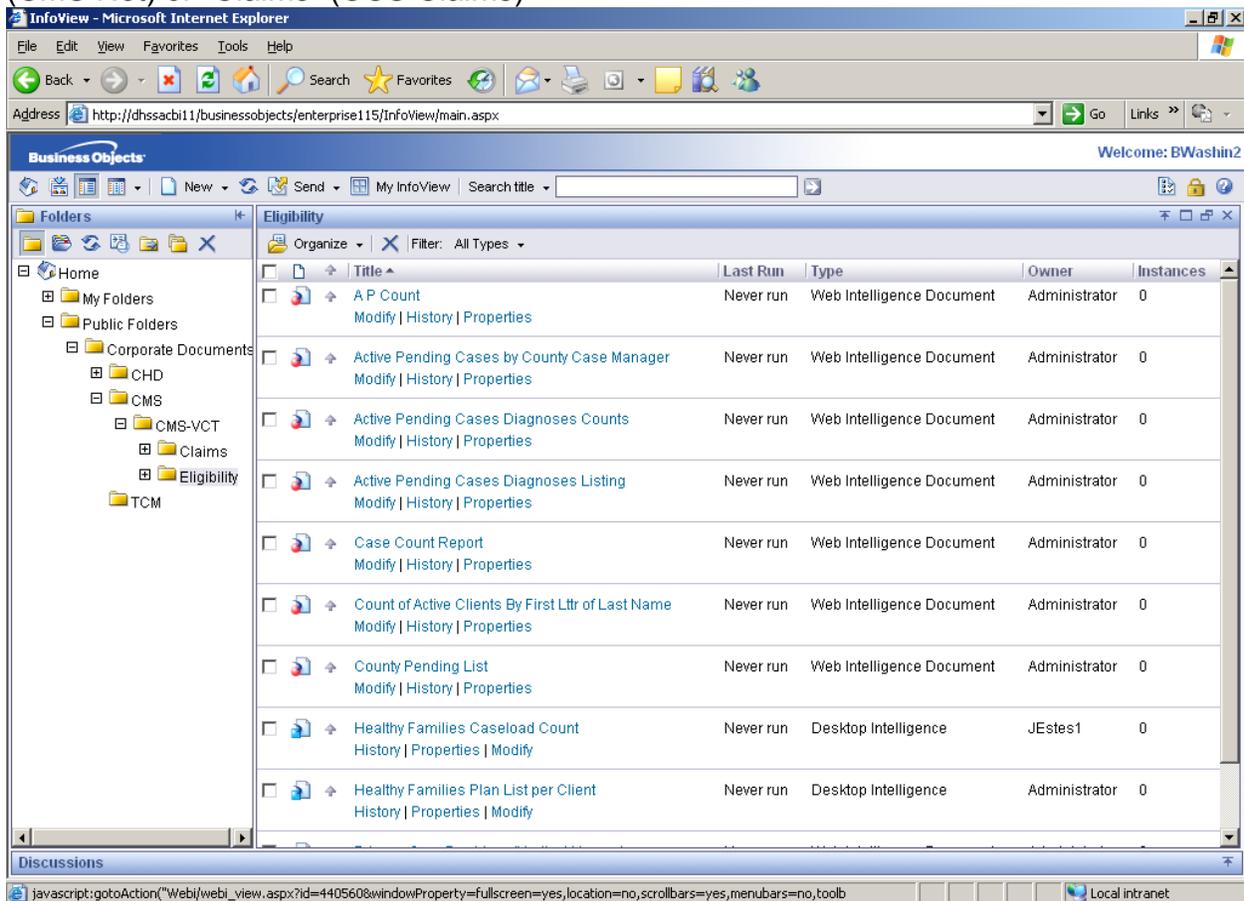

Welcome to BusinessObjects

Enter your user information and click Log On.
(if you are unsure of your account information, contact your system administrator)

User name:

Password:

Click on "Public Folders," then "Corporate Documents," then "CMS," then "Eligibility" (CMS Net) or "Claims" (CCS Claims)

The screenshot shows the InfoView application interface in a Microsoft Internet Explorer browser window. The browser address bar shows the URL: `http://dhssacbi1/businessobjects/enterprise115/InfoView/main.aspx`. The application title is "Business Objects" and the user is logged in as "BWashin2".

The left sidebar shows a "Folders" tree with the following structure:

- Home
 - My Folders
 - Public Folders
 - Corporate Documents
 - CHD
 - CMS
 - CMS-VCT
 - Claims
 - Eligibility
 - TCM

Click on the title of the report you want to run. Business Objects may ask you to enter additional information about the report you want to run, or it will simply run the report.

InfoView - Microsoft Internet Explorer

Address: http://dhssacbi11/businessobjects/enterprise115/InfoView/main.aspx

Welcome: BWashin2

A/P Count

Last Refresh: 8/28/08 3:45:06 PM

Case Status	Participant Count
ACTIVE	12,598
PENDING	809
REOPEN PENDING	124
Sum:	13,531

Done Local intranet

To run another report, click the “Claims” or “Eligibility” folder on the left hand side of the screen, then choose another report to run.

Saving the Report as Excel, Adobe PDF, or Comma Separated Values (CSV)

Saving a report will open the report in a new window. Some users will not see the new window- this is because of Internet Explorer settings, not Business Objects. If you do not see a new window, please contact your local IT and get their assistance in changing your browser permissions.

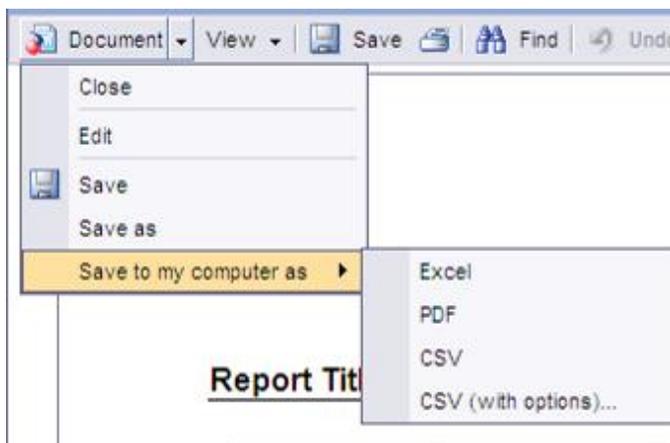

If the report disappears from the screen and you are taken to the beginning Business Objects welcome screen when trying to save, simply navigate to the report and try again. This occasionally occurs when you try to save the report, but should not happen twice in a row.

The following corporate documents will default to opening as Adobe PDF format. You can click the “View in HTML format” button to save the report as Excel or CSV.

- CMS 07 – Healthy Families Caseload Count
- CMS 08 – Healthy Families Plan List per Client
- CMS 10 – MTU Client Count by ZIP Code
- CMS 11 – Cases Closed Due to Death of Client

Open the report in “View” mode

Click the down arrow next to the “Document” icon on the toolbar

Highlight “Save to my computer as...” and click either Excel, PDF, or CSV

Eligibility (CMS Net) Corporate Documents

All reports automatically refresh with data as of yesterday in CMS Net unless otherwise stated.

CMS 01 – All Active Cases

Lists all active cases in the county, sorted by last name.

Prompt: None

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser window. The interface is titled "WebIntelligence Java Report Panel - Microsoft Internet Explorer" and features the "WEBINTELLIGENCE" logo and "BUSINESS OBJECTS" branding. The main area is divided into several sections:

- Query:** Includes buttons for "Edit Query", "Edit Report", "Add Query", and "Run Query".
- Data:** A tree view showing the "Patient Registration" object with its properties: PRIEN, Name, Date of Birth, Case Number, Gender, Case Status, Last Updated, Last Updated By, Originally Entered On, Originally Entered By, Social Security Number, Temporary Case Number, Client Index Number, Alias, Current Legal County, Current Residence County, and PT ZIP Code.
- Result Objects:** A list of selected fields: Case Number, Ref Tran Dt Reg, Date of Birth, lcd9, Current Program End Date, and Name.
- Query Filters:** A section for defining filters, including:
 - Case Status In list: ACTIVE ; TRANSFER/ACTIVE
 - And Priority Equal to: 1
 - Current Legal County

At the bottom of the interface, there is a status bar showing "Last Refresh Date: August 28, 2008 10:19:47 AM" and a warning icon labeled "Partial results". The browser's address bar shows "Applet Java_Report_Panel started" and "Local intranet".

All Active Cases

CMS 02 – All Referrals (0-30, 31-60, 61-90, Over 90)

This report lists all clients in a pending or reopen pending status. It groups clients by the number of days between the referral and today's date.

Four tabs are included in this report:

- 0-30
- 31-60
- 61-90
- Over 90

Prompt: None

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser window. The interface is titled "WEBINTELLIGENCE" and includes a "Query" tab with options for "Edit Query" and "Edit Report". A "Run Query" button is visible in the top right corner. The main area is divided into several sections:

- Data Properties:** A list of data fields including "App Signed-Received Date", "Reason App Not Signed", "First Application Letter", "Second Application Letter", "Third Application Letter", "App Status Last Update Date", "Application Status Type", "Medi-Cal Number", "Share of Cost", "Subcategories Under Medi-Cal", "First Auth Date", "Current Legal County Code", "Current Residence County", "CCS HF MC Ind", "Age Months", "Age Years", "Current Legal County", "Patient Registration Age Filter", "Referral-Transfer", "Current Referral-Transfer", "Address", "User", "County Case Manager User", "Regional Case Manager User", "Managed Care Plan", and "Miscellaneous Tickler".
- Result Objects:** A section containing four selected objects: "Case Number", "Case Status", "Ref Tran Dt Reg", and "Name".
- Query Filters:** A section with two filters: "Case Status In list: PENDING ; REOPEN PENDING" and "Current Legal County".

At the bottom of the interface, there is a "Query 1" tab and a status bar indicating "Last Refresh Date: August 28, 2008 1:54:06 PM". The browser's taskbar at the very bottom shows "Applet Java_Report_Panel started" and "Local intranet".

All Referrals 0-30 Days

CMS 04 – Age Report (Cases Turning 14, 16, 18, 20 Next Year)

This report lists all active and pending clients that are turning 14, 16, 18, and 20 next year. This report is used for transition planning.

Four tabs are included in this report:

- Turning 14 Next Year
- Turning 16 Next Year
- Turning 18 Next Year
- Turning 20 Next Year

Prompt: None

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser. The interface is titled "WEBINTELLIGENCE" and includes a "Query" tab. On the left, a tree view shows the "Patient Registration" data source with various fields listed. The "Result Objects" pane on the right shows selected fields: "Date of Birth", "Case Number", and "Name". Below this, the "Query Filters" section contains the following filters:

- Case Status In list: ACTIVE ; TRANSFER/ACTIVE, PENDING ; ...
- And
- Current Legal County
- Age Years Greater than or equal to: 12

The interface also shows a "Last Refresh Date: August 26, 2008 2:47:52 PM" and a status bar at the bottom indicating "Applet Java_Report_Panel started" and "Local intranet".

Cases Turning 14 Next Year

CMS 06 – Medi-Cal and HF Lapsed

This report pulls cases with lapsed Medi-Cal or Healthy Families.

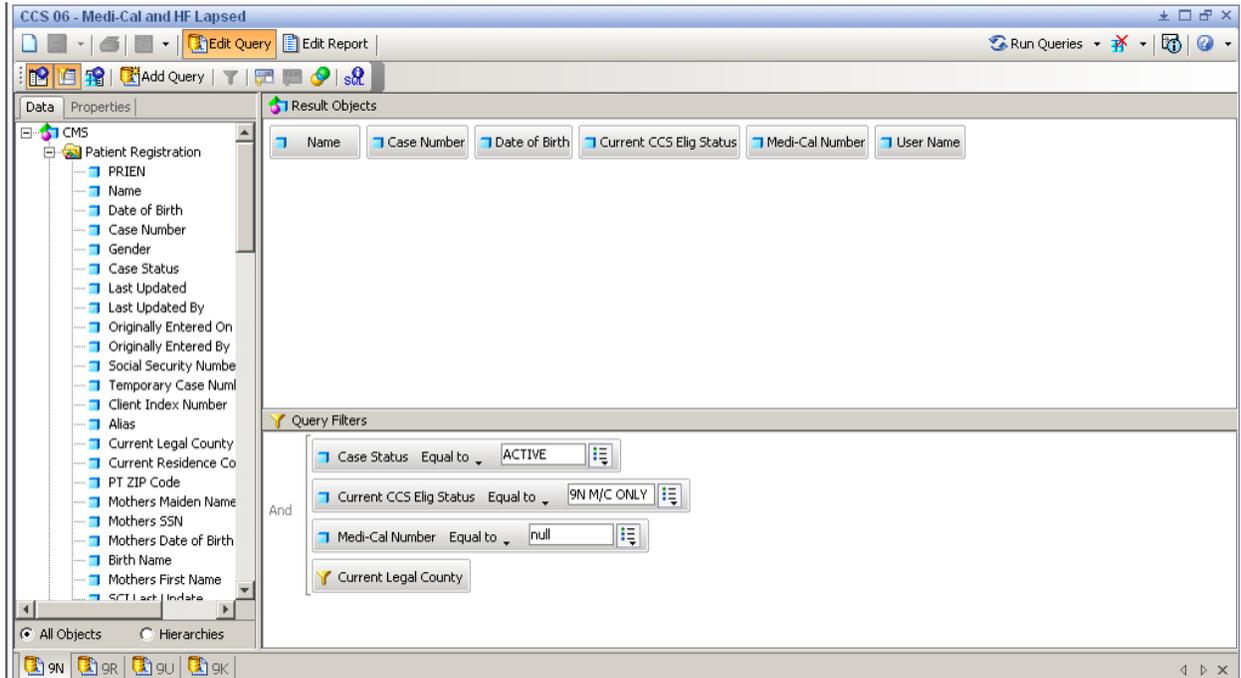

This report has four tabs:

- 9N clients with no Medi-Cal Number
- 9R clients with no Medi-Cal Number
- 9U clients with no Medi-Cal Number
- 9K clients with no Medi-Cal Number

The Medi-Cal number field identifies a case as a Medi-Cal case, a Healthy Families case, or a CCS only case.

CMS 09 – Count of Active Clients by First Ltrr of Last Name

Count of active and pending cases, grouped by first letter of last name.

Prompt: None

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser. The interface is titled "WebIntelligence Java Report Panel - Microsoft Internet Explorer" and features the "WEBINTELLIGENCE" logo and "BUSINESS OBJECTS" branding. The main workspace is divided into several sections:

- Query:** Contains buttons for "Edit Query", "Edit Report", "Run Query", and "Add Query".
- Data:** A tree view showing the "Patient Registration" data source with various fields such as "PRIEN", "Name", "Date of Brith", "Case Number", "Gender", "Case Status", "Last Updated", "Last Updated By", "Originally Entered On", "Originally Entered By", "Social Security Number", "Temporary Case Number", "Client Index Number", "Alias", "Current Legal County", "Current Residence County", and "PT ZIP Cnde".
- Result Objects:** Displays two objects: "Lastname 1st Lettr" and "Participant Count".
- Query Filters:** Shows a filter configuration with "Current Legal County" and "Case Status Equal to: ACTIVE" connected by an "And" operator.
- Bottom Panel:** Includes a "Query 2" tab, a "Last Refresh Date: October 16, 2007 4:02:26 PM" indicator, and a status bar showing "Applet Java_Report_Panel started" and "Local intranet".

CMS 13 – Address Labels (Instructions on second tab)

List of clients with address information, used in printing labels. The second tab of the report contains instructions for creating address labels in Microsoft Word 2003.

Prompt: Address Type, Case Status

Report contains the following fields:

- Addressee Name
- Address Line 1
- Address Line 2
- City State
- Zip Code
- Phone Number
- Language
- Relation to PT
- Client First Name
- Client Last Name
- Case Number
- Date of Birth
- MTU
- Case Status
- Address Type

CMS 14 – Active Pending Counts and List

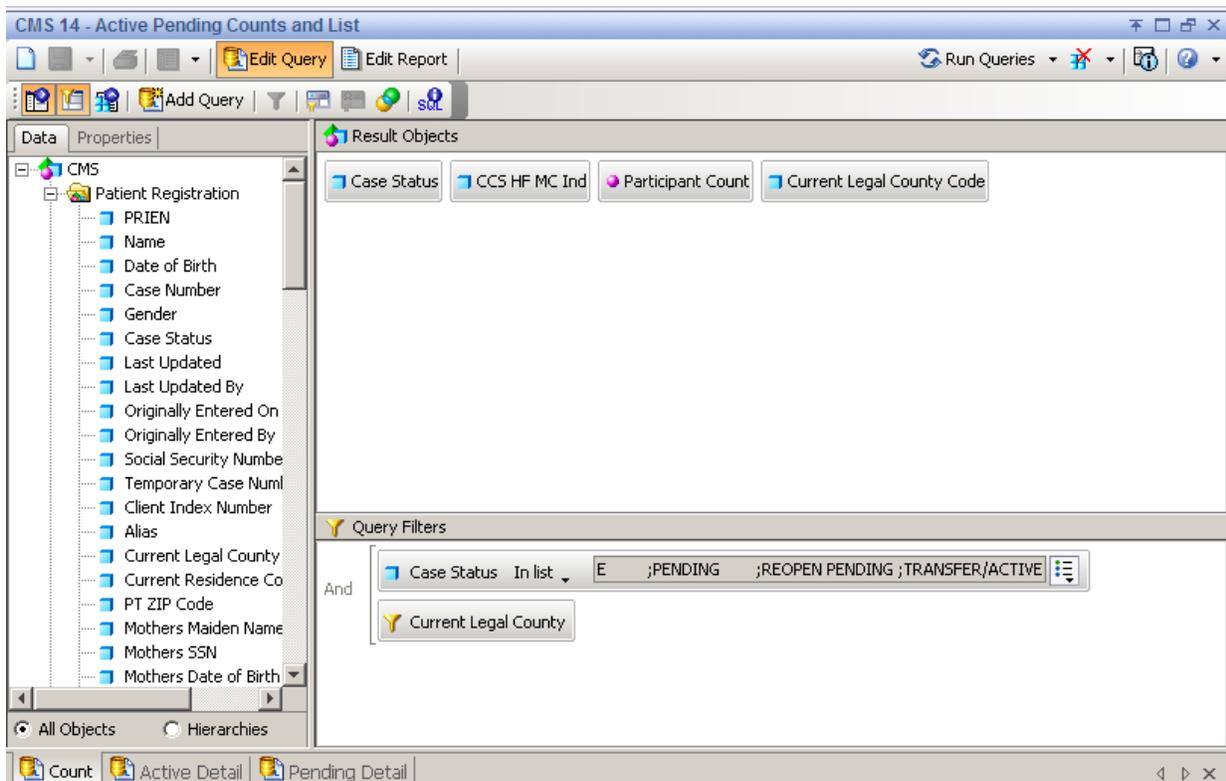

Four tabs are included in this report:

- Active and Pending Count by Case Status, Funding Source
- Active and Pending Count by Funding Source, Case Status
- Active List
- Pending List

Prompt: None

Active and Pending Count by Case Status, Funding Source

Active Pending Cases Diagnoses Listing

List of Active and Pending Cases by ICD9 Code.

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser. The main window title is "WebIntelligence Java Report Panel - Microsoft Internet Explorer". The interface includes a top navigation bar with "Edit Query" and "Edit Report" buttons, and a "Run Query" button on the right. Below this is a "Query" toolbar with "Add Query" and "SQL" options.

The central area is divided into several sections:

- Data Properties:** A tree view on the left shows the "Patient Registration" object with various fields like "PRIEN", "Name", "Date of Brith", "Case Number", "Gender", "Case Status", "Last Updated", "Last Updated By", "Originally Entered On", "Originally Entered By", "Social Security Number", "Temporary Case Number", "Client Index Number", "Alias", "Current Legal County", "Current Residence County", "PT ZIP Code", "Mothers Maiden Name", "Mothers SSN", and "Mothers Date of Birth".
- Result Objects:** A panel on the right lists selected fields: "Icd9", "Name", "Case Number", "Date of Brith", "Participant Count", "Priority", and "Case Status".
- Query Filters:** A section below the result objects contains the following filters:
 - Case Status In list: ACTIVE ; PENDING ; REOPEN PENDING ; ...
 - Priority Equal to: 1
 - Icd9 In list ("Icd9?")
 - Current Legal County

At the bottom of the interface, there is a "Query 2" tab, a "Last Refresh Date: October 16, 2007 3:40:15 PM" indicator, and a status bar showing "Applet Java_Report_Panel started" and "Local intranet".

Expenditures (by Provider Number, Date of Service)

Lists claims by provider, then client.

Prompt: Provider Number, From Date of Service, To Date of Service

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser window. The interface is titled "WebIntelligence Java Report Panel - Microsoft Internet Explorer" and features the "WEBINTELLIGENCE" logo and "BUSINESS OBJECTS" branding. The main area is divided into several sections:

- Query:** Includes buttons for "Edit Query", "Edit Report", "Run Query", and "Add Query".
- Data:** A tree view showing the data source "CCSCLM" with a hierarchy of objects: "Beneficiary" (containing fields like Beneficiary Name, Date of Birth, HIC Nbr, Bene ID, SSN or MEDS ID, CIN, Prog Specific Id, Age at DOS Years, Age at DOS Months, Race, Age Range, Sex), "Provider", "Claim", "Claim Line", and "restrictions".
- Result Objects:** A grid of fields to be included in the report, including Beneficiary Name, CIN, Tar Control Nbr, Prov Number, Prov Name, Procedure Code, Claim line From Date of Service, Claim Line To Date of Service, Claim Line Amt Billed, Claim Line Amt Paid, CCN, and Payment Date.
- Query Filters:** A section for defining filters, currently showing "Prov Number Equal to ('Prov Number Equal to:')" and "From Date of Service Between ('From Date of Service:') --- ('To Date of Service:')." connected by an "And" operator.
- Bottom Panel:** Shows "Query 2" and "Last Refresh Date: October 17, 2007 8:44:54 AM".

The status bar at the bottom indicates "Applet Java_Report_Panel started" and "Local intranet".

Expenditures (by SAR Number)

Lists claims by SAR number, then provider number.

Prompt: SAR Number

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser window. The interface is titled "WebIntelligence Java Report Panel - Microsoft Internet Explorer" and features the "WEBINTELLIGENCE" logo and "BUSINESS OBJECTS" branding.

The main interface is divided into several sections:

- Query:** Includes buttons for "Edit Query", "Edit Report", "Run Query", and "Add Query".
- Data:** A tree view showing the data source "CCSCLM" and its hierarchical structure:
 - Beneficiary
 - Beneficiary Name
 - Date of Birth
 - HIC Nbr
 - Bene ID
 - SSN or MEDS ID
 - CIN
 - Prog Specific Id
 - Age at DOS Years
 - Age at DOS Months
 - Race
 - Age Range
 - Sex
 - Provider
 - Claim
 - Claim Line
 - restrictions

- Result Objects:** A collection of selected fields for the report, including:
- Beneficiary Name
- CIN
- Tar Control Nbr
- Prov Number
- Prov Name
- Procedure Code
- Claim line From Date of Service
- Claim Line To Date of Service
- Claim Line Amt Billed
- Claim Line Amt Paid
- CCN
- Payment Date
- Query Filters:** A section containing a filter: "Tar Control Nbr Equal to ('SAR Equal to:')".

At the bottom of the interface, there is a "Query 2" tab, a "Last Refresh Date: October 17, 2007 10:24:26 AM" indicator, and a status bar showing "Applet Java_Report_Panel started" and "Local intranet".

Expenditures Detail Report (by Payment Date, First Ltr of Last Nm)

List of claims by funding source.

Prompt: From Payment Date, To Payment Date, From First Ltr of Last Nm, To First Ltr of Last Nm)

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser window. The interface is titled "WebIntelligence" and includes a "Query" section on the left and a "Result Objects" section on the right.

Query Section:

- Data:** A tree view showing the hierarchy of data objects. The "Beneficiary" object is expanded, showing fields such as Beneficiary Name, Date of Birth, HIC Nbr, Bene ID, SSN or MEDS ID, CIN, Prog Specific Id, Age at DOS Years, Age at DOS Months, Race, Age Range, and Sex. Other objects include Provider, Claim, Claim Line, and restrictions.
- Properties:** A tab for configuring the query's properties.

Result Objects Section:

- Result Objects:** A list of fields to be included in the report, such as Funding Source Desc, Beneficiary Name, Aid Code, CIN, Prov Number, Prov Name, Primary Diagnosis Code, Tar Control Nbr, CCN, Payment Date, Procedure Code, Claim Line Amt Paid, Claim line From Date of Service, Claim LineTo Date of Service, Claim Line Amt Billed, and County Name.
- Query Filters:** A section for defining filters. The current filter is: "Payment Date Between ('Payment Date From:') --- ('Payment Date To:')." and "Beneficiary Name Between ('FROM: FIRST LETTER OF LAST NAME AND %(e.g., A%)') --- ('TO: FIRST LETTER OF LAST NAME AND %(e.g., B%)')." The filter is applied using an "And" operator.

Footer:

- Buttons for "All Objects" and "Hierarchies".
- Label "Query 2".
- Status bar: "Last Refresh Date: October 17, 2007 10:36:49 AM" and "Partial results".
- System tray: "Applet Java_Report_Panel started" and "Local intranet".

Paid Claims by Funding Source - Summary Report (by Payment Date)

Count of number of claims and sum of total billed and paid by funding source.

Prompt: From Payment Date, To Payment Date

The screenshot displays the WebIntelligence Java Report Panel interface within a Microsoft Internet Explorer browser window. The title bar reads "WebIntelligence Java Report Panel - Microsoft Internet Explorer". The interface includes a menu bar with "Edit Query" and "Edit Report", and a toolbar with "Run Query" and other icons. The main area is divided into several sections:

- Query:** Contains a "Data" tab and a "Properties" tab. The "Data" tab shows a tree view of the data source "CCSCLM" with the following objects selected:
 - Beneficiary
 - Beneficiary Name
 - Date of Birth
 - HIC Nbr
 - Bene ID
 - SSN or MEDS ID
 - CIN
 - Prog Specific Id
 - Age at DOS Years
 - Age at DOS Months
 - Race
 - Age Range
 - Sex
 - Provider
 - Claim
 - Claim Line
 - restrictions

- Result Objects:** A list of selected fields for the report:
- Funding Source Desc
- Claim Line Count
- Claim Line Amt Paid
- County Name
- Payment Date
- Claim Line Amt Billed
- Query Filters:** A filter is defined: "Payment Date Between ("Payment Date From:") --- ("Payment Date To:")".

At the bottom of the interface, there is a "Query 3" label, a "Last Refresh Date: October 17, 2007 10:49:28 AM" timestamp, and a status bar indicating "Applet Java_Report_Panel started" and "Local intranet".

Paid Claims by Funding Source
